Introduction

Welcome to the latest issue of Cepi's Annual Trade Statistics, covering data for 2024.
This report is a complement to the Cepi Annual Statistics Report, and includes more detailed data on trade.

Cepi was founded in 1992 and annual statistics cover the period 1991 – 2024. Cepi represents 90% of the European pulp and paper industry in terms of production (Europe minus Russia).

The Confederation of European Paper Industries (Cepi) is a Brussels-based non-profit making organisation, which represents the European pulp and paper industry towards the European Institutions. Through its member associations, Cepi also represents approximately 470 pulp, paper and board producing companies across Europe, ranging from small and medium-sized enterprises, to multinationals (counting once companies with a presence in more than one Cepi country).

Since the 1st January 2024, EVICHE, the Union of Greek Paper Mills, is member of Cepi. Historic data included in this report has been updated to include figures from the Greek Paper and Board industry.

Tissue Paper : as of 1 January 2025, the paper category "Sanitary and Household" becomes "Tissue Paper", resulting from a joint Cepi and European Tissue Symposium (ETS) decision to ensure a more consistent and accurate approach to data collection and sector recognition.

Members of Cepi in 2024

The National Associations of the 18 following countries: Austria, Belgium, Czech Republic, Finland, France, Germany, Greece, Hungary, Italy, The Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

Data Collection

This report mainly aggregates data from 2024 voluntarily provided by Cepi member National Associations and, where it is complemented by data other than from these members, the sources are clearly stated (in most cases this is Eurostat and other foreign paper industry organisations).

The data result from the answers to the questionnaires sent by Cepi to its members. The national associations supply the data, which they collect from their member mills/companies plus official sources where appropriate.
EU data is based on data supplied by National Associations for Cepi countries and on other sources for EU non-Cepi countries (Eurostat, AFRY, Trade Data Monitor, Fastmarkets).

Notes and definitions related to the terms used in this report can be found on pages 113 to 120.

Data quality and compliance with EU competition rules

Responsibility for the collection and the management of the statistical data lies with the Cepi statistics department, which is constantly working to improve the quality of the data reported. In order to further increase the reliability and credibility of the data reported, Cepi has commissioned Deloitte to issue a limited assurance statement on the data quality rating that Cepi carried out on its core indicators in the statistics report. The detailed data quality rating and the limited assurance statement will be available soon on http://www.Cepi.org/statistics

The compliance of the data produced with the EU competition rules is periodically checked by a law firm.

Definitions

More information and details related to the definitions and descriptions of terms and categories used in the European Paper Industry can be found in the new Cepi booklet "Pulp and Paper Industry - Definitions and Concepts".

European Pulp and Paper Industry

2024 compared to 2023

Notes

The exports considered are the exports to non-Cepi countries.

They do not include internal deliveries or trade between Cepi countries.

The imports considered are the imports from non-Cepi countries.

They do not include internal deliveries or trade between Cepi countries.

The list of Cepi Countries can be found on page 113.

Cepi uses the European Union Geonomenclature for its statistics

Europe

Cepi Countries

Austria, Belgium, Czech Republic, Finland, France, Germany, Greece, Hungary, Italy, The Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

Other Europe than Cepi Countries

Albania, Andorra, Belarus, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Denmark, Estonia, Faeroe Islands, Gibraltar, Iceland, Ireland, Isle of Man, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova (Republic of), Monaco, Montenegro, Russian Federation, San Marino, Serbia, Svalbard & Jan Mayen Islands, Switzerland, Turkey, Ukraine, Vatican City State.

EU-27 Countries

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, The Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden.

Africa

Algeria, Angola, Benin, Botswana, British Indian Ocean Territory, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Ceuta, Chad, Comoros, Congo, Congo (Democratic Republic), Cote d'Ivoire, Djibouti, Egypt, Equatorial Guinea, Africa, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libyan Arab Jamahiriya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mayotte, Melilla, Morocco, Mozambique, Namibia, Niger, Nigeria, Reunion, Rwanda, Saint Helena, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, Sudan, Swaziland, Tanzania, Togo, Tunisia, Uganda, Western Sahara, Zambia, Zimbabwe.

Asia

Afghanistan, Armenia, Azerbaijan, Bahrain, Bangladesh, Bhutan, Brunei, Darussalam, Cambodia, China, Georgia, Hong Kong, India, Indonesia, Iran, Iraq, Israel, Japan, Jordan, Kazakhstan, Korea (Democratic People's Republic of), Korea (Republic of(S)), Kuwait, Kyrgyzstan, Lao People's Democratic Republic, Lebanon, Macao, Malaysia, Maldives, Mongolia, Myanmar, Nepal, Oman, Pakistan, Philippines, Qatar, Saudi Arabia, Singapore, Sri Lanka, Syrian Arab Republic, Taiwan, Tajikistan, Thailand, Timor Leste, Turkmenistan, United Arab Emirates, Uzbekistan, Viet Nam, West bank /Gaza, Yemen.

Latin America

Anguilla, Antigua & Barbuda, Argentina, Aruba, Bahamas, Barbados, Belize, Bermuda, Bolivia, Brazil, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Dominica, Dominican Republic, Ecuador, El Salvador, Falkland Islands (Malvinas), French Guiana, Grenada, Guadeloupe, Guatemala, Guyana, Haiti, Honduras, Jamaica, Martinique, Mexico, Montserrat, Netherlands Antilles, Nicaragua, Panama, Paraguay, Peru, Puerto Rico, Saint Kitts and Nevis, Saint Lucia, Saint Vincent & Grenadines, Sint-Maarten (France), Suriname, Trinidad & Tobago, Turks & Caicos Islands, Uruguay, Venezuela, Virgin Islands (British), Virgin Islands (U.S.).

North America

Canada, Greenland, Saint Pierre and Miquelon, United States.

Rest of the World

American Samoa, Antarctica, Australia, Bouvet Island, Christmas Island, Cocos (Keeling) Islands, Cook Islands, Fiji, French Polynesia, French Southern Territories, Guam, Hawaiian Islands (U.S.), Heard & McDonald Islands, Kiribati, Marshall Islands, Micronesia (Federated States of), Nauru, New Caledonia, New Zealand, Niue, Norfolk Island, Northern Mariana Islands, Palau, Papua New Guinea, Pitcairn, Samoa, Salomon Islands, South Georgia & South Sandwich Islands, Tokelau, Tonga, Tuvalu, US Minor Outlying Islands, Vanuatu, Wallis & Futuna Islands.

Paper and Board Consumption

Production + Imports from other Cepi Countries + Imports from outside Cepi – Exports to other Cepi Countries – Exports to outside Cepi

Paper and Board Grades

Graphic Papers

Newsprint: Paper mainly used for printing newspapers. It is made largely from mechanical pulp and/or paper for recycling, with or without a small amount of filler. Products in this category are generally manufactured in strips or rolls of a width exceeding 36 cm. Weights usually range from 40 to 52 g/m2 but can be as high as 65 g/m2. Newsprint is machine finished or slightly calendered, white or slightly coloured and is used in reels for letterpress, offset or flexo printing.
The Cepi Harmonised Code for Newsprint is 100 000 000.
Uncoated mechanical: Paper suitable for printing or other graphic purposes where less than 90% of the fibre furnish consists of chemical pulp fibres. This grade is also known as groundwood or wood-containing paper. The sub-grades of uncoated mechanical are uncoated mechanical improved (high-bright and super-bright), supercalendered paper (SC-A+, SC-A, SC-B) and other uncoated mechanical (directory paper, thin printing grades and book paper). Uncoated mechanical is largely used for magazines and catalogues printed by the rotogravure and offset methods, and book paper. It excludes wallpaper base.
The Cepi Harmonised Code for Uncoated Mechanical is 211 000 000.
Uncoated woodfree: Paper suitable for printing or other graphic purposes, where at least 90% of the fibre furnish consists of chemical pulp fibres. Uncoated woodfree paper can be made from a variety or furnishes, with variable levels of mineral filler and a range of finishing processes such as sizing, calendering, machine glazing and watermarking. The sub-grades of uncoated woodfree are cut-sizes (A3 or smaller, including A4), folio sheets (larger than A3) and reels (rolls). This grade includes most office papers, such as business forms, copier, computer, stationery and book papers. Pigmented and size press “coated” papers (coating less than 5 g per side) are covered by this heading. It excludes wallpaper base. The Cepi Harmonised Code for Uncoated Woodfree is 231 000 000.
Coated papers: Printing and writing papers, which have been coated on one or both sides with coating materials such as clay (beneficiated kaolin), calcium carbonate, barium sulphate, gypsum or zinc oxide, often supplemented with supercalendering, etc. It includes coated paper produced at the paper mill from base paper manufactured for own use or purchased, together with all paper made and coated in a single operation on the papermaking machine. It includes raw carbon and self-copy paper in rolls or sheets. It excludes other copying and transfer papers.
The Cepi Harmonised Code for Coated Mechanical is 212 000 000 and for Coated Woodfree is 232 000 000.

Tissue Paper

Base paper made from lightweight, dry or wet creped paper and some non-creped paper, predominantly made from natural fibres. These fibres can be issued from virgin pulp or recycled pulp, a mixture of both, or in some cases non-wood fibres.
The base paper material is taken from the tissue machine as a single-ply web wound up on a roll/reel. The base paper is intended to manufacture single-ply or multi-ply tissue products. A typical grammage of single ply tissue base paper ranges from 10 g/m2 to 50 g/m2.
The sub-grades of tissue paper are cellulose wadding, tissue<25g, tissue>25g and other tissue paper.
The Cepi Harmonised Code for Sanitary and Household is 700 000 000.

Packaging Paper and Board

Containerboard (Also known as Case Materials): Papers and boards mainly used in the manufacture of corrugated board. They are made from any combination of virgin and recovered fibres and can be bleached, unbleached or mottled. Fluting is the middle ply with outer layers called the liners. The sub-grades of containerboard are liners (kraftliners and testliners), flutings (semi-chemical fluting and recovered paper- / paper for recycling- based fluting (Wellenstoff)) and dual papers. Main uses are corrugated boxes, transport packaging, storage and product display. The Cepi Harmonised Code for Containerboard is 300 000 000.
Cartonboard (can also be written as Carton Board): Board single or multiply, coated or uncoated. It is made from virgin and/or recovered fibres, and has good folding properties, stiffness and scoring ability. It is mainly used in cartons for consumer products such as frozen food, cosmetics and pharma. The sub-grades of cartonboard are solid board (bleached and unbleached), folding boxboard, white lined chipboard, boxboard or carrier board.
The Cepi Harmonised Code for Cartonboard is 400 000 000.
Wrappings: Papers whose main use is wrapping or packaging made from any combination of virgin or recovered fibres, bleached or unbleached. They may be subject to various finishing and/or marking processes. The sub-grades of wrappings are sack kraft, other wrapping krafts, sulphite and grease-proof papers. The Cepi Harmonised Code for Wrappings is 500 000 000.
Other Paper & Board for Packaging: This category embraces all paper and board mainly for packaging purposes other than those listed above. Most are produced from recovered fibres, e.g. greyboards, and go for conversion, which in some cases may be for end-uses other than packaging including book covers and games. The sub-grades are greyboard, moulded products and unlined chip.
The Cepi Harmonised Code for Other Packaging is 600 000 000.

Other Paper and Board

Other papers and boards for industrial and special purposes. It includes cigarette papers and stock of filter papers, as well as gypsum liners and special papers for insulating, roofing, waxing, asphalting and other specific applications or treatments; wallpaper base; unbleached kraft paper and paperboard that are not sack kraft paper or kraftliner and weighing more than 150 g/m² but less than 225 g/m²; felt paper and paperboard; tracing papers; not further processed uncoated paper weighing 225 g/m² or more; and raw copying and transfer papers, in rolls or sheets except carbon or self-copy paper.
It excludes all composite, not coated, paper and paper board of flat layers stuck together; coated paper and paperboard not uniformly bleached throughout the mass; and paper and paperboard covered or coated with plastics (excluding adhesives). The Cepi Harmonised Code for Special Paper and Board is 800 000 000.

Pulp

Market Pulp Production

Pulp for sale in the open market and does not include pulp used in own plant or shipped to wholly owned or associated companies within the country. All pulp moving outside the producing country is considered to be market pulp.

Pulp Grades

Mechanical Pulp

Woodpulp, including reject pulp, obtained by grinding or milling into their relatively short fibres, coniferous or non-coniferous rounds, quarters, billets, etc., or through refining coniferous or non-coniferous chips. Called stone groundwood pulp and refiner groundwood pulp can include pre-treatment with chemical as in chemi-mechanical pulp. It can be bleached or unbleached. This pulp is used mainly in newsprint and wood-containing papers, like LWC (light-weight coated) and SC papers. Cepi Harmonised Code is 923 000 000.

Thermo-mechanical (TMP): pulp produced by a mechanical process in which wood chips are softened by pre-heating under pressure prior to a pressurized refining stage. TMP has mainly the same end-uses as stone groundwood. Variants of the above two processes produce pressurised stone groundwood pulp and refiner mechanical pulp. Cepi Harmonised Code is 923 400 000.

Semi-Chemical Pulp

Semi-chemical: Woodpulp, including reject pulp, obtained by subjecting coniferous or non-coniferous wood to a series of mechanical chemical treatments and cooking in a pressure vessel, none of which alone is sufficient to make the fibres separate readily, followed by mechanical treatment. The ratio of the weight of the pulp produced to the weight of wood used is often very high. It can be bleached or unbleached. This pulp is mainly used in the production of fluting medium for corrugated board. Cepi Harmonised Code is 921 000 000.

Chemi-thermomechanical (CTMP): Pulp produced in a similar way to TMP, but the wood particles are chemically treated before entering the refiner. This pulp has properties suited to tissue manufacture. CTMP is classified under semi-chemical pulps in the Harmonised System of the Customs Co-operation Council. In the FAO, as well as in other industry statistics, such chemi-thermomechanical pulps are grouped with mechanical pulp.

Chemical Pulp

Sulphite: pulp produced by cooking wood chips in a pressure vessel in the presence of bisulphite liquor. End-uses range from newsprint, printing and writing papers, tissue and sanitary papers. Sulphite can be either bleached or unbleached. Exclude dissolving pulp. Cepi Harmonised Code is 922 200 000.

Sulphate (or kraft): pulp produced by cooking wood chips in pressure vessels in the presence of a sodium hydroxide (soda) liquor. The pulp may be unbleached or bleached. End-uses are widespread, with bleached pulp particularly used for graphic papers, tissue and carton boards. Unbleached pulp is commonly used in liner for corrugated board, wrappings, sack and bag papers, envelopes and other unbleached speciality papers. Exclude dissolving pulp. Cepi Harmonised Code is 922 100 000.

Other Pulp

Pulp produced from fibres other than wood, such as sugar cane bagasse, wheat straw, kenaf, cotton rags and hemp.

Wood

Wood Consumption

The wood used for pulp and paper manufacturing is mainly constituted of the following assortments: pulpwood (roundwood other than sawlogs, from silvicultural measures such as thinning or final felling), chips and residues from sawmills. The utilisation of sawlogs is very limited and sawdust volumes consumed are negligible. The relative shares of softwood and hardwood used depend on the country considered and the pulp and paper grades produced. The main softwood species used are pine and spruce. The main hardwood species used are birch, eucalyptus, beech and aspen. Oak is hardly used.
The wood consumption figures reported by the pulp and paper companies and included in the Cepi statistics are the volumes of wood at the mill gates and come from domestic supply or imports.

Roundwood: Logs and branches

Chips: Logs and branches which have been processed into chips (particles of wood).

Hardwood: The wood from non-coniferous (broadleaved) trees (trees that do not have needles or cones).

Softwood: The wood from coniferous trees.

Wood - Solid Under Bark: The volume of wood excluding the bark

Paper for Recycling

To clarify the intended use of collected paper for recycling in paper mills, it has been decided to substitute the term “recovered paper” by “paper for recycling”.

Utilisation

Use of paper for recycling as raw material.
Volumes entering the mill gates. Mill broke are not included.

Recovery

Principle of waste management policy including reuse, material recycling, composting and energy recovery as well as exports for similar purposes.

Recycling

Reprocessing of paper for recycling in a production process for the original purpose or for other purposes, including composting but excluding energy recovery.

Collection

Separate collection of paper and paper products from industrial and commercial outlets, from households and offices for recovery. (Collection includes transport to the sorting or recycling plant/paper mill.)
Collection = utilisation plus exports minus imports of paper for recycling.

Utilisation Rate

Percentage of paper for recycling utilisation compared to the total paper production.
Important Note: Paper for recycling is composed of fibrous material but also unwanted material – non-paper components as well as paper and board detrimental to production. The share of unwanted material depends on the actual collection and sorting of used paper. It varies according to the grades of paper for recycling but its maximum limit is 3% for most post-consumer grades and 1% for most pre-consumer grades according to the EN 643. The volume of recycled fibrous material actually in the new paper is therefore lower than the volume of paper for recycling utilised. The utilisation rate compares paper for recycling utilisation to paper production

Recycling Rate

Percentage of paper for recycling "utilisation + net trade" compared to total paper consumption.

Paper for Recycling Classes

Class I - Mixed Grades

Waste and scrap of paper or paperboard, including unsorted waste and scrap.

Class II - Corrugated and Kraft

Unbleached kraft paper or paperboard or corrugated paper or paperboard.

Class III - Newspapers and Magazines

Paper or paperboard made mainly of mechanical pulp (for example, newspapers, journals and similar printed matter). Including old and unsold newspapers and magazines, telephone directories, brochures and printed advertising material.

Class IV - Other Grades

Other paper or paperboard made mainly of bleached chemical pulp, not coloured in the mass.

Groups of Paper for Recycling Grades

According to the EN 643 “European List of Standard Grades of Paper for Recycling and Board”, the following is the official paper for recycling grade listing:
Mixed Grades: 1.01.00, 1.02.00, 1.03.00, 5.01.00, 5.02.00, 5.03.00, 5.03.01, 5.05.00, 5.05.01, 5.05.02, 5.11.00
Corrugated and Kraft: 1.04.00, 1.04.01, 1.04.02, 1.05.00, 1.05.01, 4.01.00, 4.01.01, 4.02.00, 4.03.00, 4.04.00, 4.05.00, 4.06.00, 4.07.00, 4.08.00, 5.04.00, 5.08.00, 5.12.00, 5.12.01, 5.13.00, 5.13.01
Newspapers and Magazines: 1.06.00, 1.06.01, 1.06.02, 1.07.00, 1.09.00, 1.11.00, 2.01.00, 2.02.00, 2.02.01
Other Grades: 2.03.00, 2.03.01, 2.04.00, 2.04.01, 2.05.00, 2.05.01, 2.06.00, 2.06.01, 2.07.00, 2.07.01, 2.08.00, 2.10.00, 2.11.00, 2.12.00, 2.13.00, 2.14.00, 2.14.01, 3.01.00, 3.02.00, 3.03.00, 3.03.01, 3.04.00, 3.05.00, 3.05.01, 3.06.00, 3.08.00, 3.09.00, 3.10.00, 3.10.01, 3.11.00, 3.11.01, 3.12.00, 3.13.00, 3.14.00, 3.15.00, 3.15.01, 3.16.00, 3.16.01, 3.17.00, 3.18.00, 3.18.01, 3.18.02, 3.19.00, 3.20.00, 3.20.01, 5.05.03, 5.06.00, 5.06.01, 5.07.00, 5.07.01, 5.09.00, 5.10.00, 5.10.01, 5.14.00, 5.14.01

Recycled Pulp

Pulp manufactured from paper for recycling and used for the manufacture of paper, paperboard and fibreboard. It excludes pulp made from straw; bamboo; bagasse; esparto; other reeds or grasses; cotton fibres; flax; hemp; rags; and other textile wastes.

See page 120 for CN code

Definitions

More information and details related to the definitions and descriptions of terms and categories used in the European Paper Industry can be found in the new Cepi booklet "Pulp and Paper Industry - Definitions and Concepts".

European Classifications

Pulp and Paper Industry Activities are classified under these NACE 2 Headings:
C17 Manufacture of paper and paper products
C17.1 Manufacture of pulp, paper and paperboard
C17.1.1 Manufacture of pulp
C17.1.2 Manufacture of paper and paperboard
C17.2 Manufacture of articles of paper and paperboard
C17.2.1 Manufacture of corrugated paper and paperboard and of containers of paper and paperboard
C17.2.2 Manufacture of household and sanitary goods and of toilet requisites
C17.2.3 Manufacture of paper stationery
C17.2.4 Manufacture of wallpaper
C17.2.9 Manufacture of other articles of paper and paperboard
In general data reported to Cepi would be classified under:
C17 Manufacture of paper and paper products
C17.1 Manufacture of pulp, paper and paperboard
C17.1.1 Manufacture of pulp
C17.1.2 Manufacture of paper and paperboard

External Trade activities

External Trade activities relating to the pulp and paper industries are classified under Chapters 47 and 48 of the Combined Nomenclature.
For further details of the Combined Nomenclature see:
http://ec.europa.eu/taxation_customs/customs/customs_duties/tariff_aspects/combined_nomenclature/index_en.htm

Country Coding (ISO Standard 3166)

Austria: AT - Belgium: BE - Bulgaria: BG - Croatia: HR - Cyprus: CY - Czech Republic: CZ - Denmark: DK - Estonia: EE - Finland: FI - France: FR - Germany: DE - Greece: GR - Hungary: HU - Ireland: IE - Italy: IT - Latvia: LV - Lithuania: LT - Luxembourg: LU - Malta: MT - The Netherlands: NL - Norway: NO - Poland: PL - Portugal: PT - Romania: RO - Russia: RU - Slovakia: SK - Slovenia: SI - Spain: ES - Sweden: SE - Switzerland: CH - Turkey: TR - United Kingdom: UK.
