Press release

4evergreen: a unique industry alliance to boost the contribution of fibre-based packaging in a circular economy

Brussels, 20 November

Cepi, the European association representing the paper industry, announced today a new alliance called 4evergreen. The aim of the alliance is to boost the contribution of fibre-based packaging in a circular and sustainable economy that minimises climate and environmental impact.

The alliance will increase awareness about the benefits of fibre-based packaging materials, advocate for EU legislation supporting product design for recyclability and call for the development of optimised collection systems and appropriate recycling infrastructures.

The rise of environmental awareness and consumer concerns, as well as the increase of packaging focused regulation, such as the Single Use Plastics Directive, have helped companies to accelerate the development of alternative packaging materials including fibre-based packaging with a view to helping consumers make more climate-friendly choices.

4evergreen was created as a forum to engage and connect industry members from across the fibre-based packaging value chain, from paper and board producers to packaging converters, brand-owners and retailers, technology and material suppliers, waste sorters and collectors.

“Fibre-based packaging can be a game-changer for material substitution”, says Eija Hietavuo, Chairwoman of 4evergreen and Senior Vice President Sustainability Stora Enso Consumer Board. “Our common goal is to deliver a holistic approach to optimise the sustainability and circularity of the fibre-based packaging’s life cycle.”

“The time to act is now!” says Jori Ringman, Director General at Cepi. “Our industry already has a strong track record in environmental performance and recycling, but our ambition is higher. We are driving a system-wide shift to transition to the next level of circularity and climate resilience. 4evergreen will be the place for the whole industry value chain to co-create and collaborate for a change.”

The first 4evergreen alliance members include Nestlé, Danone, Mars, Stora Enso, Smurfit Kappa, Sappi, Metsä Board, UPM, Mayr-Melnhof Group, Reno de Medici, Mondi, Burgo, Kotkamills, DS Smith, Heinzel Group, Ahlstrom Munksjö, International Paper, BillerudKorsnäs, Huhtamäki, SEDA, SIG Combibloc, Tetra Pak, Elopak, Walki, Schur Group, Cardbox Packaging, Firstan Ltd., WestRock, Leonhard Kurz Stiftung & Co. KG, Graphic Packaging International, AR Packaging, Baumer hhs GmbH, Van Genechten Packaging Group, Sonoco, VTT. The alliance is welcoming more organisations to join the collaboration.

Note to editor:

For more information about 4evergreen, please contact Claire Couet, Cepi Public Affairs & Communications Director, at c.couet@cepi.org.

For more information on membership opportunities please contact Giulia Fadini, Cepi Innovative Projects Manager, at g.fadini@cepi.org.

About CEPI:

Cepi is the European association representing the paper industry.

We offer a wide range of renewable and recyclable wood-based fibre solutions to EU citizens: from packaging to textile, hygiene and tissue products, printing and graphic papers as well as specialty papers, but also bio-chemicals for food and pharmaceuticals, biocomposites and bioenergy.

We are a responsible industry: 92% of our raw materials are sourced in Europe and certified as sustainable, 91% of the water we use is returned in good condition to the environment. We are the world champion in recycling at the rate of 71.6%. At the forefront of the decarbonisation and industrial transformation of our economy,
we embrace digitalisation and bring 20 billion value addition to the European economy and €5.5 billion investments annually.

Through its 18 national associations, Cepi gathers 500 companies operating 895 mills across Europe and directly employing more than 180,000 people.
